

Professional Experience

Director of Research Stanford University, School of Medicine	2020- present
Research Fellow Harvard Medical School, Brigham and Women's Hospital	2019-2020
Postdoctoral Associate Massachusetts Institute of Technology, Computer Science and Artificial Intelligence Laboratory	2017-2020

Education

Ph.D. Psychology and Cognitive Neuroscience University of Toronto	2014-2017
M.A. Psychology and Cognitive Neuroscience University of Toronto	2013-2014
B.Sc. Psychology and Social Anthropology University of Cape Town	2008-2010

Research Contributions

Publications

- [1] **Lowe, M.X.**, Stevenson, R.A., Barense, M.D., Cant, J.S., and Ferber, S. (2018). Relating the perception of visual ensemble statistics to individual levels of autistic traits, *Attention, Perception, & Psychophysics*, 80 (7), 1667-1674
- [2] **Lowe, M.X.**, Rajsic, Ferber, S., and Walther, D.B. (2018). Discriminating scene categories from brain activity within 100ms, *Cortex*, 106, 275-287* **Featured on the journal cover**
- [3] **Lowe, M.X.**, Rajsic, J., Gallivan, J.P., Ferber, S., and Cant, J.S. (2017). Neural representation of geometry and surface properties in object and scene perception, *NeuroImage*, 157, 586-597* **Featured on the journal cover**
- [4] Robin, J., **Lowe, M.X.**, Pishdadian, S., Rivest, J., Cant, J.S., & Moscovitch, M. (2017). Selective scene perception deficits in a case of topographical disorientation, *Cortex*, 92, 70-80
- [5] **Lowe, M.X.**, Gallivan, J.P., Ferber, S., and Cant, J.S. (2016). Feature diagnosticity and task context shape activity in human scene-selective cortex, *NeuroImage*, 125, 681-692* **Featured on the journal cover**
- [6] **Lowe, M.X.**, Stevenson, R.A., Wilson, K.E., Ouslis, N.E., Barense, M.D., Cant, J.S., and Ferber, S. (2016). Sensory processing patterns predict the integration of information held in visual working memory, *Journal of Experimental Psychology: Human Perception and Performance*, 42(2), 294-301

- [7] Wilson, K.E., **Lowe, M.X.**, Ruppel, J., Pratt, J., and Ferber, S. (2016). The scope of no return: Openness predicts the spatial distribution of Inhibition of Return, *Attention, Perception, & Psychophysics*, 78, 209-217
- [8] **Lowe, M.X.**, Ferber, S., and Cant, J.S. (2015). Processing context: Asymmetric interference of visual form and texture in object and scene interactions, *Vision Research*, 117, 34-40* **Featured on the journal cover**

Submitted Manuscripts

- [9] Assaf, H., Mzozoyana, M., Al Zoubi, H., Nador, J.D., Noesen, B., **Lowe, M.X.**, and Cant, J.S. (in revision). Artificially-generated scenes demonstrate the importance of global scene properties for scene perception.
- [10] Wilson, K., Sun, S.Z., Emrich, S., **Lowe, M.X.**, Kosnik, R., Ruppel, J., and Ferber, S. (in revision). Individual differences in visual attention: Conscientiousness and selective attention.

Manuscripts in Preparation for Submission

- [11] **Lowe, M.X.***, Mohsenzadeh, Y.*, Lahner, B., Charest, I., Oliva, A., and Teng, S. Spatiotemporal dynamics of sound representations reveals a progression of category dominance.

Peer-reviewed Conference Publications

- [12] **Lowe, M.X.**, Teng, S., Mohsenzadeh, Y., Charest, I., Pantazis, D., and Oliva, A. (2018). Temporal dynamics underlying sound discrimination in the human brain. *Cognitive Computational Neuroscience, CCN 2018*
- [13] Lahner, B., Teng, S., **Lowe, M.X.**, Charest, I., Oliva, A., and Mohsenzadeh, M. (2019). The emergence of early sound categorical responses in the human brain, *Shared Visual Representations in Human and Machine Intelligence (SVRHM), NeurIPS*, 2019

Peer Reviewed Conference Presentations

2019

- [1] Lahner, B., Teng, S., **Lowe, M.X.**, Charest, I., Oliva, A., and Mohsenzadeh, M. (2019). The emergence of early sound categorical responses in the human brain, Poster presented at Shared Visual Representations in Human and Machine Intelligence (SVRHM), NeurIPS, Vancouver, BC
- [2] **Lowe, M.X.**, Mohsenzadeh, Y., Lahner, B., Teng, S., Charest, I., and Oliva, A. (2019). Spatiotemporal dynamics of sound representations in the human brain. Poster presented at the Society for Neuroscience Annual Meeting, Chicago, IL.
- [3] **Lowe, M.X.**, Mohsenzadeh, Y., Lahner, B., Teng, S., Charest, I., and Oliva, A. (2019). Neural dynamics of human auditory perception across space and time. Poster presented at the Cognitive Neuroscience Society Annual Meeting, San Francisco, CA. ***Abstract awarded the Postdoctoral Fellow Award**

- [4] **Lowe, M.X.**, Mohsenzadeh, Y., Lahner, B., Teng, S., Charest, I., and Oliva, A. (2019). Spatiotemporal neural representations in high-level visual cortex evoked from sounds. Talk presented at the Vision Science Society Annual Meeting, St. Petersburg, FL.

2018

- [5] **Lowe, M.X.**, Teng, S., Mohsenzadeh, Y., Charest, I., Pantazis, D., and Oliva, A. Temporal dynamics underlying sound discrimination in the human brain. Poster presented at the Conference on Cognitive Computational Neuroscience, Philadelphia, PA.

2017

- [6] **Lowe, M.X.**, Rajsic, J., Cant, J.S., and Ferber, S. (2017). Efficient encoding of ensemble statistics in the visual periphery. Talk presented at the Society for Neuroscience Annual Meeting, Washing, D.C.
- [7] **Lowe, M.X.**, Rajsic, J., Gallivan, J.P., Ferber, S., and Cant, J.S. (2017). Making a scene: Neural representation of visual features in object and scene perception. Poster presented at the Organization for Human Brain Mapping Annual Meeting, Vancouver, BC.
- [8] **Lowe, M.X.**, Rajsic, J., Ferber, S., and Walther, D.B. (2017). Category discrimination of early electrophysiological responses reveals the time course of natural scene perception. Poster presented at the Vision Sciences Society Annual Meeting, St. Petersburg, FL.***Abstract awarded the Elsevier Travel Award**
- [9] Mzozoyana, M. W., **Lowe, M.X.**, Groen, I.I.A., Cant, J.S., and Harel, A. (2017). Artificially generated scenes demonstrate the importance of global scene properties for scene perception. Poster presented at the Vision Sciences Society Annual Meeting, St. Petersburg, FL.

2015 and prior

- [10] Cant, J.S., **Lowe, M.X.**, Rajsic, J., Gallivan, J.P. (2015). Are scene-shape and scene-texture processing mediated by shared or distinct neuronal mechanisms in the parahippocampal place area? Talk presented at the Society for Neuroscience Annual Meeting, Chicago, IL
- [11] **Lowe, M.X.**, Ferber, S., and Cant, J.S. (2015). Dynamic representation of texture and spatial layout in human scene-selective cortex. Poster presented at the Organization of Human Brain Mapping Annual Meeting, Honolulu, HI
- [12] **Lowe, M.X.**, Ferber, S., and Cant, J.S. (2015). Texture and spatial layout converge in human scene-selective cortex. Poster presented at the Vision Sciences Society Annual Meeting, St. Petersburg, FL
- [13] **Lowe, M.X.**, Stevenson, R.A., Wilson, K.E., Ouslis, N.E., Barensse, M.D., Cant, J.S., and Ferber, S. (2015). Sensory processing patterns predict the bias of ensemble statistics for items held in visual working memory. Poster presented at the Cognitive Neuroscience Society Annual Meeting, San Francisco, CA.
- [14] **Lowe, M.X.**, and Cant, J.S. (2014). Revealing a global-processing bias for texture in scene perception. Poster presented at the Canadian Society for Brain, Behaviour, and Cognitive Science Annual Meeting, Toronto, ON.
- [15] **Lowe, M.X.**, and Cant, J.S. (2014). Perceiving the global: The role of surface texture consistency in object and background perception. Poster presented at the Vision Sciences Society Annual Meeting, St. Petersburg, FL

- [16] Wilson, K.E., Ruppel, J., **Lowe, M.X.**, Shaw, M., Kosnik, R., Pratt, J., and Ferber, S. (2013). Individual differences in the scope of spatial attention. Poster presented at Vision Sciences Society Annual Meeting, Naples, FL

Neuroimaging Skills

Functional Magnetic Resonance Imaging (Univariate analysis; multivoxel pattern analysis (MPVA) including representational similarity analysis (RSA); fMR-adaptation); Electroencephalography (EEG); Magnetoencephalography (MEG)

Honors and Awards

Postdoctoral Fellow Award, Cognitive Neuroscience Society	2019
Ontario Graduate Scholarship (OGS),	2017
Elsevier Travel Award, Vision Sciences Society	2017
Ontario Graduate Scholarship (OGS)	2016
Travel Award from the Faculty of Arts & Sciences, University of Toronto	2015
Travel Award from the Faculty of Arts & Sciences, University of Toronto	2014
University of Toronto Fellowship	2013-2016
Dean's Award for Academic Excellence, University of Cape Town	2009
Academic Scholarship, University of Cape Town	2007-2008

Teaching Experience

Teaching Assistance

<i>Cognitive Neuroscience</i> (PSY493; 4th year undergraduate course, University of Toronto)	2017
<i>Cognitive Psychology Laboratory</i> (PSYC58; 3rd year undergraduate course, University of Toronto Scarborough)	2014-2016
<i>Cognitive Neuroscience of Vision</i> (PSYC51; 3rd year undergraduate course, University of Toronto Scarborough)	2014-2015
<i>Perception and Cognition</i> (PSYB51; 2nd year undergraduate course, University of Toronto Scarborough)	2014, 2016
<i>Psychological Research Laboratory</i> (PSYB01; 2nd year undergraduate course, University of Toronto Scarborough)	2013

Invited Lectures

<i>Neural representations of the visual world across time and space</i> , University of Toronto Scarborough	2017
<i>Sensation and Perception</i> , University of Toronto	2017
<i>Scene Perception</i> , University of Toronto	2015
<i>Introduction to experimental design and data analysis</i> , University of Toronto	2014-2016

Professional Service

Volunteer, CVPR 2018 & CVPR 2018 Area Chair Workshop	2018
fMRI Project Planning Committee Member University of Toronto	2014-2016
University of Toronto Scarborough Campus Representative, PGSA	2014-2015
Master of Arts Student Representative, PGSA	2013-2014

Ad-hoc Peer Review

Journal of Neuroscience, Attention, Perception, & Psychophysics, Cortex, Human Brain Mapping, Journal of Cognitive Neuroscience, Journal of Experimental Psychology: General, Experimental Brain Research

Professional Memberships

Society for Neuroscience, Cognitive Neuroscience Society, Vision Science Society, Organization for Human Brain Mapping, Cognitive Computational Neuroscience

Sporting Achievements

Mountaineering

<i>Summit of Mafadi Peak</i> , South Africa, highest mountain in South Africa (11,319ft)	2017
<i>Summit of Mt. Aconcagua</i> , Andes Mountain range; Argentina, highest mountain in the Western and Southern Hemispheres (22, 838ft)	2016
<i>Summit of Mt. Elbrus</i> , Caucasus Mountain Range, Russia, highest Mountain in Europe (18, 510ft)	2013
<i>Mt. Kilimanjaro</i> , Tanzania, highest mountain in Africa (19, 341 ft)	2005
